

ESCAPE

This popular off-roader model is ideal for the family, or couples who want that bit of extra room to move. The area at the foot of the bed is perfect for an optional set of drawers and is unique to Cub's 2.6 Series. With this extra area, Cub's 2.6 Series provides significantly more living space than any other major brand of camper trailer of a similar size. The Escape now comes standard with Colorbond Dover White Panels.

You can easily tow the Escape behind a 4WD, and set up is quick and simple. The camper opens up to over 5 metres of living space – plenty of room for a swag, bunks or extra storage.

As well as a large fridge box and 100ah Lithium battery system, the Escape comes with independent suspension, 17" alloy rims, twin shock absorbers, LED bedside lighting, twin USB ports, 12V battery charger, 240V battery charger, solar input and dual recovery points as standard. This Cub also comes with a queen or single beds as a layout option.
