

L16

The Cub L16 is engineered for adventure-chasers looking for a robust, lightweight, fully off-road, and affordable caravan. Expertly constructed to tackle the most challenging terrain, the L16 uses Australian Bluescope steel to form the chassis and a timberless frame with composite panels to easily withstand some the toughest conditions you could possibly face.

The L16 features a magnificent interior, designed to provide maximum comfort in the most remote locations imaginable. There will be no “roughing it” while you’re lazing on your pillow top mattress to escape the heat in the interior, or unwinding under the awning and playing your favourite playlist on the stereo. However you choose to enjoy your next adventure, the Cub L16 has you covered.

All model specification details are subject to change

‡ The tare and ball weights are a guide only and will change depending on drawbar layout and accessories fitted to your caravan. Please discuss with a member of the Cub sales team prior to purchase. Each Cub Camper is weighed on completion of build and a precise written weigh bridge certificate is then provided.

Please note that all images displayed on this page are for illustrative purposes only and may include optional equipment and features. Please confirm final specifications and features with an authorised Cub Campers showroom prior to purchase.
