CARAVAN BIKE RACKS

*The **best** bike rack you will ever buy... The **only** bike rack you'll ever need to buy...*

Caravan owners across Australia and New Zealand choose GripSport Van-Racks for three simple reasons... simplicity, toughness and unbelievably quick load & unload times.

Van-Racks can be fitted to almost any caravan or camper-trailer and will accommodate bikes of all styles and sizes... from kids' bikes, through to the largest Road or Mountain bikes. And of course all GripSport bike racks are rated to carry the heaviest of e-bikes too.

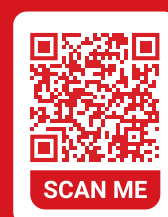

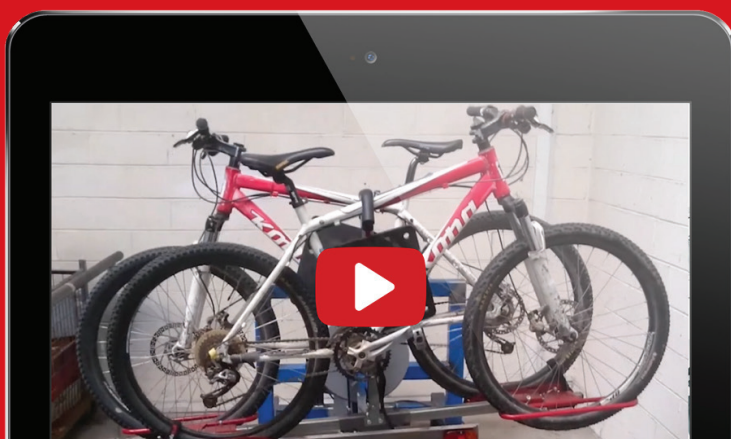

So if you're looking for the safest & easiest way of travelling with your bikes, make sure you're using a GripSport. That way you can enjoy thinking about the adventures ahead for you... rather than worrying about whether or not your bikes are even going to get there.

Note - It is always preferable & safest to carry bikes on the front of a van or camper - Most vans and campers are not strong enough to mount a bike rack off the rear - GripSport Van-Racks are specifically designed to fit on "A" frames, but may also be rear mounted if the rear bumper is strong enough - Read more about our guarantee online.

We put our bike racks to the test...

People ask how we can offer a lifetime warranty on all our bike racks. It's because we're so confident they will endure the toughest conditions day in day out. We test our racks on our in-house test bed, which simulates the toughest conditions your adventures could ever throw at them.

The perfect companion on the road...

Super strong steel construction for long term durability.

Fully adjustable for different bikes - the ultimate protection for all frames (including carbon fibre).

Fold down centre post for fast loading and unloading of bikes.

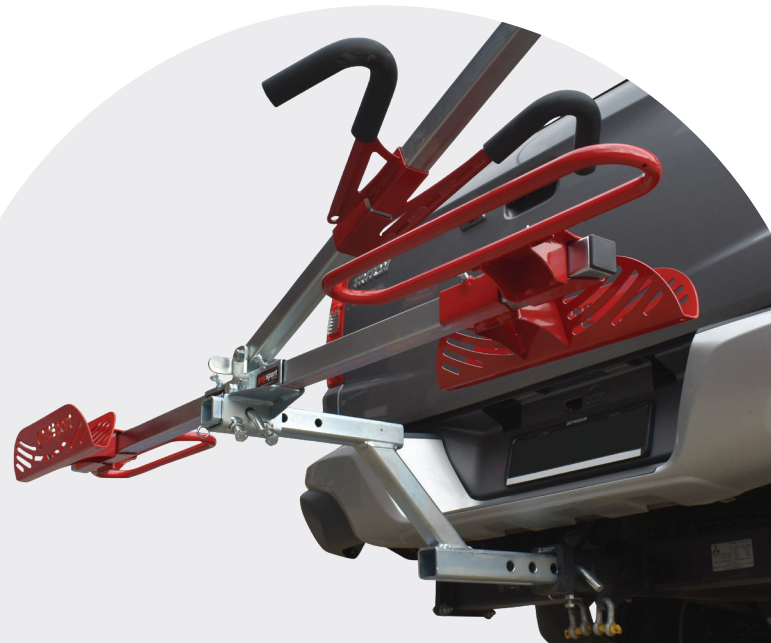

'Taco' shaped channels means no adjustment is needed when loading different bike sizes.

Simple, bullet-proof tilting action moves bikes out of the way for instant access to toolboxes & front boots, etc.

Standard wheel hoops fit 3" wide tyres right down to the skinniest road wheels. Optional "fat-bike" hoops available.

Switch between caravan and vehicle...

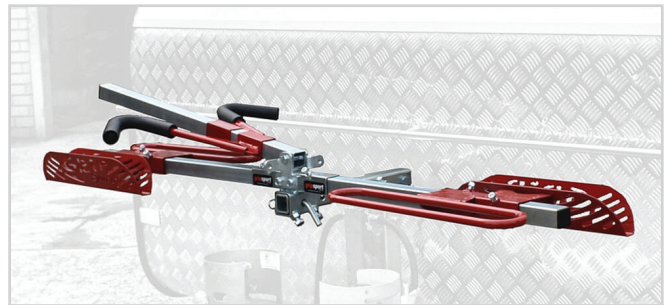

Our optional tow bar adapter means you're not restricted to starting and finishing every ride from your campsite. Within minutes, you can switch your rack and start driving your bikes towards a completely new adventure.
